HVAD ER THERMOPLAST?

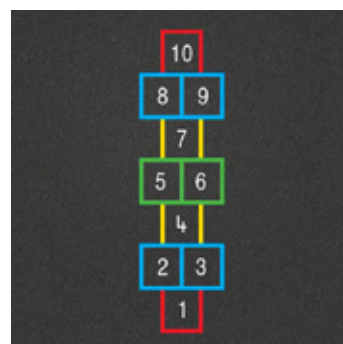

» GIVER LIV TIL EN KEDELIG BELÆGNING VED AT BRINGE LEG, FARVER OG LÆRING IND I OVERFLADEN - KUN FANTASIEN SÆTTER GRÆNSER

Asfaltdekorationer i termoplast er et dagligt syn på belægninger over hele landet. Hos institutioner, på boldbaner og ved fritidsarealer, inspirerer termoplastiske produkter både børn og voksne til leg, læring og motion.

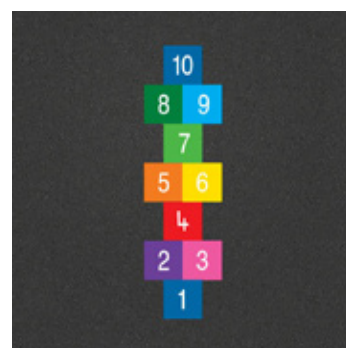

Hos NOORD ApS har vi med vores brede produktsortiment på over 200 produkter, en klar vision om at kunne bidrage til, at de ellers sort/hvid betonet asfaltbelægninger bliver vækket til live med farver, leg, læring og motion.

Med vores mange års erfaring indenfor både levering og montering af termoplastiske produkter, har vi glæden af at kunne tilbyde vores kunder den fornødne ekspertise inden for produktvalg, installation samt specialdesignet produkter.

Alle vores produkter er af højeste kvalitet og sikrer en lang levetid. Som standard leveres alle vores produkter med skridsikring og er fuldt pigmenteret, for at sikre brugernes sikkerhed og produktets farve i hele dets levetid.

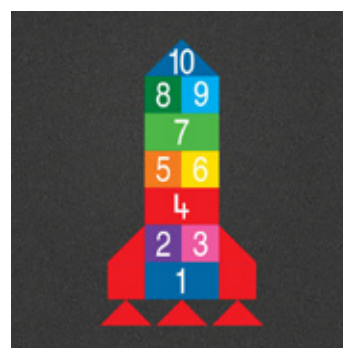

Hopscotch Outline
Dimensions: 3500 x 1000 mm
Order nr.: AB-TMG001-O

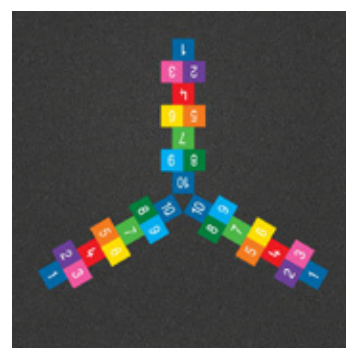

Hopscotch Large
Dimensions: 2800 x 800 mm
Order nr.: AB-TMG001-L

Hopscotch Small
Dimensions: 2100 x 600 mm

Order nr.: AB-TMG013-A

Circular Maze
Dimensions: 3000 x 3000 mm
Order nr.: AB-TMG013-C3

THE CHARTRES LABYRINTH

Den oprindelige ‘Chartres Labyrinth’ er lokaliseret i Sydfrankrig, på kirkegulvet i katedralen i byen Chartres.

Efter en ekskursion til Frankrig, ville Institut Sanks Joseph privatskole have den eksakt samme labyrinth 1:1 placeret i deres skolegård.

Labyrinten har et areal på ca. 175 kvm og en ganglængde på ca. 430 meter ind til midten.

Order nr.: AB-TME014-AZ

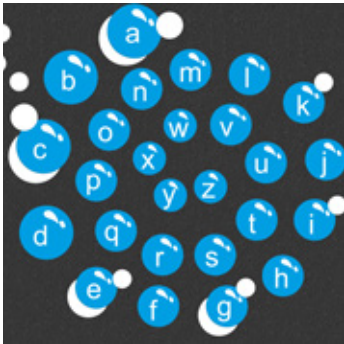

LÆRING OG LEG I LYNGBY

På Sorgenfriskole har vi monteret denne 100 felters hinkerude. Skolen ønskede at give eleverne muligheden for at føre læringen med ud på legepladsen. Hinkరుden giver eleverne mulighed for selv at udfolde og sammenkoble leg og læring på deres egne præmisser i frikvartererne, samtidig med at hinkరుden kan fungere med som en del af den almene undervisning.

Dimensions: 3350 x 1310 mm
Order nr.: AB-TME021

GØR LÆRING TIL EN LEG

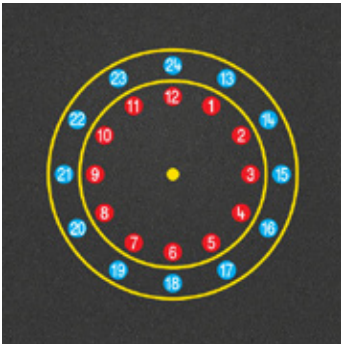

Vi har produkterne til at læring kan blive en leg. Slangen her er blot et eksempel på hvordan termoplast på jeres asfalt vil kunne udfolde sig. Er fokuset mere på f.eks. bogstaver, kan produkterne tilpasses der til. Vi har produkter der beskæftiger sig både med sproglig -, matematisk -, geometrisk -, geografisk - og astronomisk læring. Sammensæt dit eget læringsprodukt med inspiration herfra kataloget, så det passer lige præcist til jer og jeres brugeres leg og læring.

	Snake 1-10 Dimensions: 3750 x 1250 mm Order nr.: AB-TME003-10 Snake 1-25 Dimensions: 6750 x 1750 mm Order nr.: AB-TME003-25		Snake 1-35 Dimensions: 9000 x 1750 mm Order nr.: AB-TME003-35 Snake A-Z Dimensions: 7250 x 1750 mm Order nr.: AB-TME003-AZ

INSPIRATION TIL MOTION

Bevægelse er en vigtig del af alles hverdag. Vi vil med vores produkter inspirere til at den daglige motion kan blive sjov, spændende og konkurrencepræget. I vores sortiment har vi en række lege og spil samt adventure trails (ses på billedet ovenfor) som lægger op til bevægelse i flere former f.eks. løb, hop og hink.

MULTIBANEN

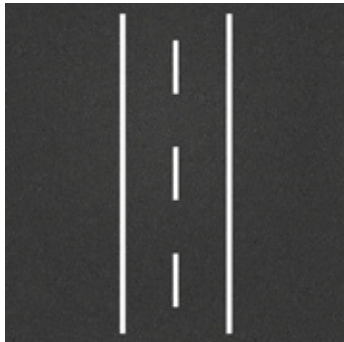

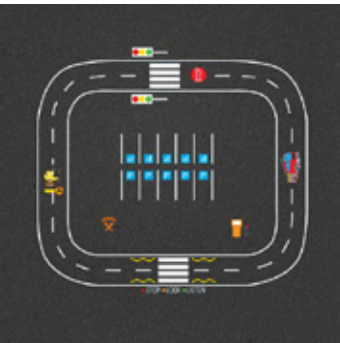

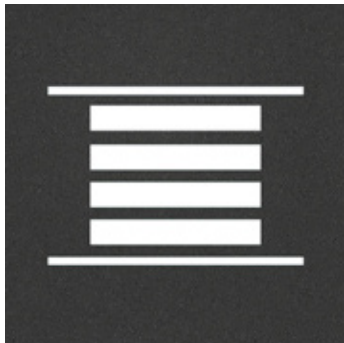

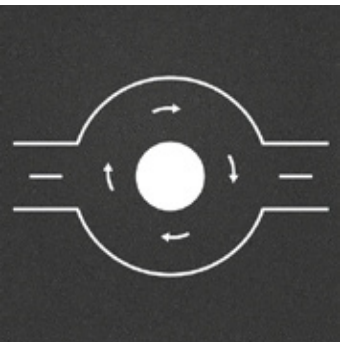

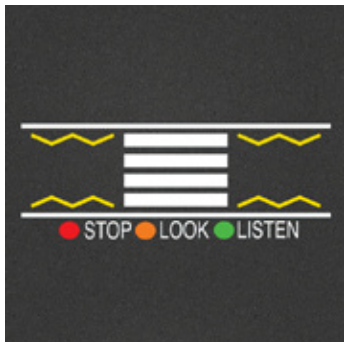

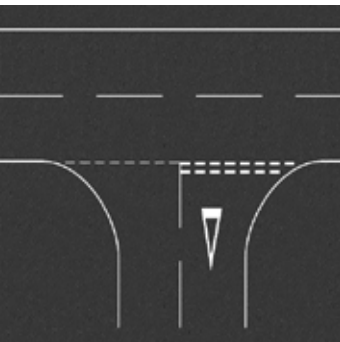

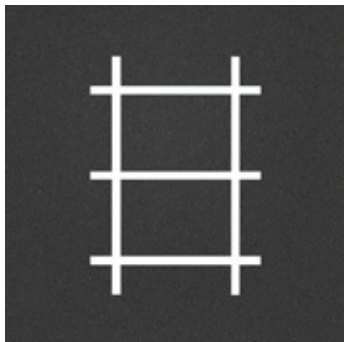

Den klassiske boldbane er nok en af de ældste asfalt opstregninger og findes hos stort set alle institutioner, parker, sportsforeninger mv. I takt med interesserne indenfor andre sportsgrene er steget, er vores baner det også. Den klassiske fodboldbane kan nu få selskab af f.eks. basket, tennis, volley mm. I bestemmer selv sammensætningen af jeres multibane.

BYG-SELV KØREBANE

Trafiksikkerhed er et vigtigt læringsmål for alle unge som skal til at færdes i trafikken. Men for de helt små kan en kørebane til mooncars være højdepunktet. Med NOORD's Road tracks serie, har du selv mulighed for at sammensætte din helt egen kørebane med udfordringer og informations-skiltning. Derudover kan vores informationsprodukter og vej-striber også anvendes på rigtige veje.

VÆRD AT VIDE

Termoplastisk markeringsprodukt til institutioner, fritidsarealer, veje og parkeringsområder; holdbar til tung trafik, tilført skridsikring og designet til kravene i det europæiske klima. Fremragende synlighed i dagslys, ekstraordinær synlighed om natten i forhold til tilsvarende produkter. Kan anvendes på alle typer asfalt samt på de fleste andre underlag (fx beton, brosten, fliser). Vi anvender en special-modificeret primer på alle overflader for at sikre den bedste vedhæftning.

Underlaget skal være horisontalt med højst lidt hældning, ikke mere end 5%. Derudover skal overfladen skal være ren, tør og støvfri og minimum have en temperatur på + 5 °C. Termoplas-ten har en hurtig tørretid og er klar til brug kort tid efter installationen.

- Lagtykkelse: ca. 2,8 mm
- Vægt: 1,9-2,0 kg/L
